DETAILED ACTION

Claims 1-11 are pending in this application. The Request for Reconsideration dated 3/18/03 has been considered but is not deemed persuasive.

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Matsui et al. (5,403,630) or Ueno et al. (4,532,199) for the reasons listed in the previous office action.

2. **Claims 1-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yamazaki et al. (6,183,816) for the reasons listed in the previous office action.**

Response to Arguments

3. Applicant's arguments filed 3/18/03 have been fully considered but they are not persuasive. Applicant argues that the references fail to teach the advantage of the use of only Kr and/or Xe gas as the inert gas component (p.2).

The examiner disagrees. Matsui, Ueno, and Yamazaki clearly teach the use of individual rare gases as noted in col.4 lines 27-41, Table 1, and col.15 lines 34-48, respectively,

Applicant next argues that Ueno Declaration established sworn data persuasive of patentability (p.3).

Art Unit: 1762

The examiner disagrees. The Ueno Declaration teaches of depositing silicon oxide with different inert gases (Experiment on p.3). The results show that thicker SiO₂ films and reduced interface trap densities are achieved. However, it is noted that this is only shown for SiO₂ films. Declarant has not established the same for other materials. It is noted that the claimed invention does not presently recite the materials utilized. Hence, the Declaration is not commensurate in scope with the instant claims.

Applicant's arguments have been considered but are not deemed persuasive.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
